

POL#3 ENVIRONMENTAL POLICY

Kym Clarke Constructions envisages and strives to complete Construction Projects in a manner that reduces our ecological footprint through developing innovative solutions and management techniques. Kym Clarke Constructions is committed to the protection of the environment and sets environmental objectives, including a focus on increasing our environmental performance.

Our commitment to continual improvement of our Environmental Management System is an integral part of our Environmental System.

Kym Clarke Constructions acknowledges our position of responsibility and leadership as a well-known Builder in the region and for that reason we will;

- Comply with environmental requirements of ISO 14001:2015
- Manage our operations in a manner consistent with sound environmental management principles
- Actively engage our team members, contractors, and Clients in environmental management
- Support research in understanding and improving our environment
- Be innovative in our approach to our Construction activities and environmental values
- Remain aware of emerging trends in environmental issues, resource management and ecological values
- Work to prevent pollution
- Fulfil our Compliance obligations
- Actively communicate with our interested parties

Continually improving in environmental management is important to our way of doing business. We set out to achieve this by;

- Viewing compliance to legal standards as a formality – where possible we operate above best practice
- Operating our environmental management system is open, transparent, and consultative.
- Developing and implementing resource re-use programs, in particular building materials
- Avoid, minimise, and manage the impact our actions have on the environment.
- Identify key environmental issues
- Have strategies and plan for managing issues effectively
- Aiming for balance between the environment, society, and the economy
- Follow a Plan Do Check Act model
- Conduct lifecycle perspective assessments

***This Policy is available to relevant interested parties, as appropriate*
